Bloodcurdling Dome

Bloodpit

I'm blinded by my fearful mind
I'm losing control it eats me inside out
Lost in time finding line
That leads me through this bloodcurdling dome

My devotion was gone after I first felt affection through the dollar bill
It took devotion away
Getaway I needed mos subdued and made me a ghost what a fool I have became after I first felt affliction through the dollar bill
It took devotion and now I'm

The dark room's waiting for me, seducing with its warmth

Blinded by my fearful mind I'm losing control it eats me inside out Lost in time finding line

That leads me through this bloodcurdling dome

Can I have a ciggie, can I have a ciggie? You can't smoke here!
