

Blue In The Face

Bloodpit

Every time I do my best
I'm not satisfied
the Stakes are high, I do concentrate
I'm learning all the time
It's hard to get into the right mood
being as erratic as I am
You know the feeling - never again-
that's me, but I always watch the rerun

What I used to feel
I dont feel anymore
What I used to see
I dont see anymore

I live my days one by one and
there's no way I'm gonna look back now
Inspiratioin moved out today
and my mind is settled to something new

What I used to feel
I dont feel anymore
What I used to see
I dont see anymore

see anymore
see anymore
see anymore

All my life I've been searching for
something to get
compleatly lost with
Shoulder to lean on is way too near
You'd rather stumble and break your skin

What I used to feel
I dont feel anymore
What I used to see
I dont see anymore

see anymore
see anymore
see anymore
