

Hit on the Radio

Blowsight

We hug, we kiss
We start to miss
And make a new fight
We break, we turn
Make up and learn
That this is all right

Oh I never wanna leave you
Cuz baby when I see you
You're taking me far away
You're making it hard to say

Just like a hit on the radio
Best romancing
Hit on the radio
Best at dancin'

Colorful and bright
Shining over the stars
Tonight
She was the best at dancing

You talk, you smile
You drink the Nile
You do it over again
The fork, the knife, the spoon
Baby, we are more than just friends

Oh I never wanna leave you
Cuz baby when I see you
You're taking me far away
You're making it hard to say

Just like a hit on the radio
Best romancing
Hit on the radio
Best at dancin'

Colorful and bright
Shining over the stars
Tonight
She was the best at dancing

So get into the groove, get into the groove
You don't even have to try
Show me your best move, show me your best move
It's gonna get me outta line

I wanna taste your skin, get you tied to the floor
I wanna see a little twiggle, wanna see something more
I wanna push you to the corner, lick the sweat off your arms
And get addicted by the scent, you're the goddess of charm

Just like a hit on the radio
Hit on the radio
Colorful and bright
Shining over the stars

Tonight

Just like a hit on the radio
Best romancing
