

# I'll Find A Way

Blu Cantrell

The promise of love  
It came from my heart  
Thought all that we shared  
Would last forever  
So where did things go wrong  
What happened that made things fall apart  
Why I just don't know  
It's so hard to let go of someone  
I used to call my own

But I'll find a way  
I'll get over you one day  
I'll find a way  
I'm gonna deal with all this pain  
I'll find a way  
'Cause I know that somewhere  
My soul mate is waiting for me  
Gonna make it through the day  
I'll find a way

Silence gets so intense  
Without you to share a word  
I really miss your presence  
This loneliness feels awkward  
But I won't call you I refuse  
I'd rather lay here by myself in the dark  
Crying my heart out  
I wish these tears could erase  
All the memories of you but they can't

'Cause what hurts today  
In time will fade away  
When you told me good-bye  
I felt so betrayed  
Find the courage  
To move on  
One day I'll replace  
The precious love I lost
