## Walk Away

Is this masquerade finally over Can we put down the roles that we've played so many times Is this really the final curtain The end of the play Or will we just dance this dance we've danced again and again and again

Once again I walk away There's no turning back this time baby Once again I walk away With every step I leave you behind me Once again I walk away Determined this time you'll be sorry Once again I walk away But if you ask me you know that I'd stay

If we put out the sun and stopped it from shining Girl we both know We still couldn't be anymore in the dark Ooh there's no flashlight There's no insight As hard as we try Ooh we keep running round in circles Time after time, hello, goodbye

Once again I walk away There's no turning back this time baby Once again I walk away With every step I leave you behind me Once again I walk away Determined this time you'll be sorry Once again I walk away But if you ask me you know that I'd stay

Is this really the final curtain The end of the play Or will we just dance this dance we've danced again and again and again

Once again I walk away There's no turning back this time baby Once again I walk away With every step I leave you behind me Once again I walk away Determined this time you'll be sorry Once again I walk away But if you ask me you know that I'd stay

I walk away I walk away But I know that I'll be back again

Once again I walk away There's no turning back this time baby Once again I walk away With every step I leave you behind me Once again I walk away Determined this time you'll be sorry Once again I walk away

## Blue

But if you ask me you know that I'd stay

Once again I walk away There's no turning back this time baby Once again I walk away With every step I leave you behind me Once again I walk away Determined this time you'll be sorry Once again I walk away But if you ask me you know that I'd stay
