

Crazy

Bob Geldof

Here comes the night again, babe.
Same night as every night, babe
And in the candle light, babe
Your beauty's like a knife
That slices through my life and...

You drive me crazy
Makes my world fall apart
I've been trying lately
To take control of my heart
You drive me crazy.

All days are good or bad days
But these days most days are bad days
And in this sacred place, babe
The days all fade away
When I see your face and...

You drive me crazy
Makes my world fall apart
I've been trying lately
To take control of my heart
You drive me crazy...

And when I saw you tonight
You know I almost died.
I'd never seen anyone
Lovelier than you,
As beautiful as you...

You drive me crazy.
