

# Magic Comet Ride

Bob Rivers

I like to dream

Yes, yes

About flying around in a space machine

When a big blue ball appears in the night

Our leader says that the time is right

Hale Bopp draws near

Clean the house and pack that gear

Well, UFO is right behind

Why don't you come with me, boys and girls

On a magic comet ride

Well, UFO's got a extra seat

Why don't you take a trek with me?

Beam us up, we'll visit ET

Grab a ride, girl

Say good bye, world

Let Hale Bopp take you away

Last night I packed a travel sack

And said goodbye on video tape

Before the ship could come for me

Some witch doctor had to take my nuts away

I donned a gown

Brand new shoes from Niketown

Well, you won't know if you stay behind

Why don't you come with me, cyber geek

On a magic comet ride

We'll follow Doe and you will see  
Why don't you go to sleep with me?  
This plastic bag will set you free

Say goodbye, world  
Log your last url  
Let the ship take you away

Well, UFO is right behind  
Why don't you come with me, boys and girls  
On a magic comet ride  
Well, UFO's got an extra seat  
Why don't you take a trek with me?  
Beam us up, we'll visit ET
