

Slave

Bobaflex

Just because you could you did it, just because you would ya
Just because you could you did it, just because you would ya
Just because you could you did it, just because you would ya
Just because you could you did...

When I first saw ya baby
Could not believe my eyes
More beautiful than angels
Falling from the sky

Let me love ya, let me prove my devotion
Don't ya leave me, don't ya change your mind
You got me feeling a particular emotion and I-I-I-I

I wanna be your slave
Do everything you say
And if I don't behave
Want you to make me pay
I wanna be your slave
Break out the whips and chains
Cause I can take the pain
And make me scream your name

Just because you could you did it, just because you would ya
Just because you could you did it, just because you would ya
Just because you could you did it, just because you would ya
Just because you could you did...

My head is humming baby
My heart's in overdrive
You get my motor running
Didn't even have to try

Let me love ya, let me prove my devotion
Don't ya leave me, don't ya change your mind
You got me feeling a particular emotion and I-I-I-I

I wanna be your slave
Do everything you say
And if I don't behave
Want you to make me pay
I wanna be your slave
Break out the whips and chains
Cause I can take the pain
And make me scream your name

Push me to the floor
Make sure my hands are tied
So I can feel you burning up inside
Whoa baby
Push me to the floor
Make sure my hands are tied
So I can feel you burning up inside
Burning up inside

I wanna be your slave
Do everything you say

And if I don't behave
Want you to make me pay
I wanna be your slave
Break out the whips and chains
Cause I can take the pain
And make me scream your name
