Jesus Is the Only One That Loves Us

Bobby Bare

See the Sunday morning wino slowly shufflin' down the street The only God he knows clutched in his hand And heaven's just a drink from his bottle And Jesus Christ to him is just another man.

Yes, Jesus is the only one that loves us He'll forgive us when we sin Jesus is the only one that loves us Even when we think we haven't got a friend.

In cheap hotel room somewhere in Chicago A cheatin' husband takes his neighbor's wife Lord, that's not the way he did it in Korea Still it's just another way of takin' someone's life.

Around the corner in a cement city alley Hidin' from the cold Chicago rain While the Salvation Army band was playin' A junky rolls his sleeves up and lets his Saviour in.

Yes, Jesus is the only one that loves us He'll forgive us when we sin Jesus is the only one that loves us Even when we think we haven't got a friend.
