

# Get Out The Way

**Bobby Brown**

Yeah

I see you doing well and it's a beautiful thing yeah  
Seems like you've got them right where you want to oh yeah  
You're on top now you can't stop this thing you've got going on  
Then you start to relax yeah

The very same people who built you up  
Are the same ones right there to take you down  
Hey what you gonna say when they move to the next best thing

Get get get get out the way  
Get get get get out the way  
What you gonna do when they don't love you like they used to  
Put your love down, I'm here to stay  
Get get get get out the way  
Get get get get out the way  
Get out the way

Now your noticin everything is changing  
Nobody's acting like you matter no more  
The trend is over  
I'm memorising, never fading, not trippin on what they're saying  
No, cause that shit don't bother me, no

The very same people who built you up  
Are the same ones right there to take you down  
C'mon c'mon  
Hey what you gonna say when they move to the next best thing  
Get get get get out the way  
Get get get get out the way  
Hey What you gonna do when they don't love you like they used to  
Pack it up now, I'm here to stay  
Get out the way  
Get out the way

C'mon, let's get 'em

I'm always bold, I keep movin on  
Cause nothing can change my mind  
To don't the truth  
Of all I've been thru I'm keeping my berth for life, yeh  
Hey what you gonna say when they move to the next best thing  
Get out the way  
Get out the way  
Hey What you gonna do when they don't love you like they used to  
Pack it up now, I'm here to stay  
Get out the way

Hey what you gonna say when they move to the next best thing  
Get out the way  
Get out the way  
Hey What you gonna do when they don't love you like they used to  
Pack it up now, I'm here to stay  
Get out the way  
Get out the way  
Hey what you gonna say when they move to the next best thing  
Get out the way

Get out the way  
Hey What you gonna do when they don't love you like they used to  
Pack it up now, I'm here to stay  
Get out the way  
Get out the way
