

## It's Over

Bobby Caldwell

When love has blown your mind  
And your illusions  
Peace gets hard to find  
And your head is in confusion  
When you go from day to day  
Putting memories away  
You know it's over

When you're trying to forget  
It's a lonely place  
And the more I try  
The harder to erase  
When you say our love  
Is just a waste of time  
Why am I still holding on  
To the love I know is gone

And now it's over  
It's over, all over now  
Where did our love go wrong  
How am I gonna carry on  
It's over, it's over  
All over now  
And it's a lonely place  
And it's hard  
When it's hard to face
