Once Upon a Time

Bobby Caldwell

It wasn't long ago We had the kind of love you'd only find In fairytales And not so long ago We were content to be The young and starry eyed Our lives were simple like a nursery rhyme Once upon a time

Do you remember when We took vacations Acapulco In the summertime Yes we were carefree then Without the pressures of a world that's so unkind Before the little things that undermine Once upon a time

Before we tried to change each other Sometimes lovers can't be friends Once upon a time We rolled in the covers Can we follow that road back again

It wasn't long ago We vowed our hearts would be Forever intertwined When making love was all we had in mind Once upon a time
