

Show Me

Bobby Caldwell

Here we are all our hearts on the table
Now it comes down to what we feel in the heart
I know we must stand by each other
Now is the time if you're still my lover

Show me your devotion
Just a measure of emotion
Show me your devotion
There's a feeling there
I know that you love me

All those dreams that we both shared together
Year after year we pushed to make our love go on
I see two hearts that need mending
I still believe in those happy endings

Show me your devotion
Just a measure of emotion
Show me your devotion
There's a feeling there
I know that you love me

Is there time for us
We can make it
Can we find what's lost
I miss you
I need all of you
And I need you too
We've got to see this through our love

Show me your devotion
Just a measure of emotion
Show me your devotion
There's a feeling there
I know that you love me

Show me your devotion
Show me, show me baby
Just a measure of emotion
Give me your emotions
Show me your devotion
Ooh darlin' 'til the end of time
There's a feeling there I know that you love me

Show me your devotion
I gotta see this through
Just a measure of devotion
Me and you, oh
Show me your devotion
I gotta make it with you
There's a feeling there I know that you love me
I know you love me baby
