

Over And Over

Bobby Day

Well I went to the dance the other night
Everybody will stay
I said over and over and over again
this dance is gonna be a drag

I said over and over and over again
this dance is gonna be a drag
I said over and over and over again
this dance is gonna be a drag

But all at once it happened
Will the prettiest in this world
Oh please want you come over here
and talk to me and be my girl

I said please want you come over here
And talk to me and be my girl
Oh please want you come over here
And talk to me and be my girl

She said that she was sorry
That I was a little bit late
She would wait and wait and wait and wait
For her steady date

She would wait and wait and wait and wait
For her steady date
She would wait and wait and wait and wait
For her steady date

Now my poor heart was broken
All my life were had she been
But I'll try over and over and over
And over again

I'll try over and over and over
And over again
I'll try over and over and over
And over again
