

She

Bobby Goldsboro

She is love
Smilin' in the sunshine
She is love
Smilin' in the rain
As helpless as a baby
To make me feel a man
But only just a step away
If I should meet her hand

And she knows I will follow
Wherever she may lead
She is all I live for
She is everything I need

She is love
Wakin' in the morning
She is love
And she is life to me
As fragile as a robin's egg
When she lies asleep
But she could break the strongest man
If he could see her weep

But you will never see her cry
As long as I'm around
I'll give her only happy days
And when the Sun goes down

She and I
We'll fly away together
She and I
We will be as one
