

# Anyone But Her

Bobby V

I'm single like a dollar bill  
But, only when she comes around  
I'd be, I'd be dead if looks could kill  
But for now, I stay killin' the sound and  
She got it (Yeah, yeah)  
Like, like, like them girls I see on porno scenes  
So, we ride it (Yeah)  
But, she could never be good for me  
Talkin' to myself like

Anyone, but her  
Why do I do this tell myself?  
Anyone, but her (Anyone, but her)  
Talkin' to myself like  
Anyone, but her

My momma told me stay away  
She's a slut that'll give me heart attacks  
But I'll probably stay another day  
Just to keep my hands around that ass

Never see the light  
We be fuckin' all the time  
She probably wouldn't fight for me  
Naw, she ain't right for me  
I heard she got a man  
She only want my Benjamins  
Ooo, she got me talkin' to myself like

Anyone, but her  
Why do I do this tell myself?  
Anyone, but her (Anyone, but her)  
Talkin' to myself like  
Anyone, but her  
Why do I do this tell myself?  
Anyone, but her (Anyone, but her)

Oh, you the baddest  
You tempt me with the mattress (Ooo, yeah)  
It's everlastin'  
Sex 101, you teach the classes  
A superstar you know exactly who you are  
All she want is the finer things  
Diamond rings, fancy cars

We never see the light  
We be fuckin' all the time  
She probably wouldn't fight for me  
Naw, she ain't right for me  
I heard she got a man  
She only want my Benjamins  
Ooo, she got me talkin' to myself like

Anyone, but her (Oh)  
Anyone, but her (Eh)  
Yeah...
