

# Make You the Only One

Bobby V

Yeah  
Valentino  
Tim and Bob  
You already know let's go

Baby, I'm so glad I found you  
Now I'll never let you go  
Cause what is there without you, girl  
Let me, build my world around you  
Give you just what you need, boo  
Promise I won't play no games

No more party, party for me  
No more drinky, drinky for me  
I'm going to make you the only one, yeah  
No more chasing pretty round things  
No more running 'round sneaky  
I'm going to make you the only one for me, for me  
I'm going to make you the only one  
(I'm going to make you the only one, girl)  
I'm going to make you the only one  
(I'm going to make you the only one)

When we, make love its like a dream  
Such a beautiful scene  
Don't have to work for anything, no  
Heaven, gave me what I pray for  
And I thank god each day for  
Enjoying life beside you, girl

Make me sing to you, make me sing tweedle-dee  
Make me fall to my knees  
Cause you so sexy  
And please, girl  
Never leave, never leave me  
That's a plead  
I never knew, but now I see  
You were made for me

(I found you) No more party, party for me  
No more drinky, drinky for me  
I'm gon' make you the only one  
(I'm gon' make you the only one)  
No more chasing pretty round things  
No more running 'round sneaky  
I'm gon' make you the only one for me, for me  
I'm going to make you the only one  
(I'm going to make you the only one)  
I'm going to make you the only one

I'm turning my player heart in  
As we begin, right here, right now, for sure, girl you know  
That you turned my life around, the way I go,  
Now I, belong, to you  
(you make me wanna sing)

Make me sing to you, make me sing tweedle-dee

Make me fall to my knees (to my knee)  
Cause you so sexy  
And please, girl  
Never leave, never leave me  
Thats a plead  
I never knew, but now I see  
You were made for me (no more partybaby)

No more party, party for me  
No more drinky, drinky for me  
I'm gon' make you the only one  
(make you the only one for me)  
No more chasing pretty round things  
No more running around sneaky  
I'm gon' make you the only one for me, for me

No more party, party for me  
No more drinky, drinky for me  
I'm gon' make you the only one (I won't)  
No more chasing pretty round things (round things)  
No more running around sneaky  
I'm going to make you the only one for me, for me  
I'm going to make you the only one  
(I'm going to make you the only one, girl)  
I'm going to make you the only one (ooh)  
I'm going to make you the only one (I'm gonna make you the only one for me)  
I'm going to make you the only one (ooh yeah)
