

That's the Way I'll Come to You

Bobby Vee

Brave and unafraid or on bended knee
Tell me how you want me
Any way you want me
That's the way I'll come to you

Do you crave a slave or should I be free?
Follow me or lead me
Any way you need me
That's the way I'll come to you

Loving you forever, that's my desire
I want to set your lips afire
With my kisses
So if you're dreaming of
Some one you could love
Who will be true
That's the way that I will come
Come to you
Oh, that's the way that I will come
Come to you
