

Baby Take Me in Your Arms

Bobby Vinton

Come on and take me in your arms and make me love you
Make me know how much I'm thinking of you
Come along and do it
There's really nothing to it
Baby if you try
Baby take me in your arms

If loving you's a crime
Then I guess I'm guilty every time
And I always will because this heart of mine needs you so

Maybe I'm a fool, but I don't know why you wanna play it cool
And my love is getting stronger, so don't be cruel, I need you
so

Come on and take me in your arms and make me love you
Make me know how much I'm thinking of you
Come along and do it
There's really nothing to it
Baby if you try

Come on and take me in your arms and make me kiss you
Make me know how much I'm gonna miss you
Come along and do it
There's really nothing to it
Baby if you try
Come on, take me in your arms

I've just seen her face and the feeling that I've never felt in
side
Makes this heart of mine just melt inside every time
And what can I do when I've tried so hard to get through to you
Somehow you won't let me steal into your heart

Come on and take me in your arms and make me love you
Make me know how much I'm thinking of you
Come along and do it, there's really nothing to it
Baby if you try

Come on and take me in your arms and make me kiss you
Make me know how much I'm gonna miss you
Come along and do it, there's really nothing to it
Baby if you try
