

My Christmas Prayer

Bobby Vinton

No Christmas gift could I bestow that could ever quiet impart
The fondest wish, the dearest dream that I feel within my heart
May God above send down his love and bless the world with cheer
May all the joy of Christmas time live on throughout the year

May peace on Earth
Good will towards men, be the dream for which we live
Let all the good of brotherhood be the Christmas gift we give
May God protect us, one and all, and keep his goodness near
May all the joy of Christmas time live on throughout the year

May Heaven bless with happiness all people everywhere
And fill the world with love and joy
That's my fervent Christmas prayer!
