## **My Christmas Prayer**

## **Bobby Vinton**

No Christmas gift could I bestow that could ever quiet impart The fondest wish, the dearest dream that I feel within my heart May God above send down his love and bless the world with cheer May all the joy of Christmas time live on throughout the year

May peace on Earth

Good will towards men, be the dream for which we live Let all the good of brotherhood be the Christmas gift we give May God protect us, one and all, and keep his goodness near May all the joy of Christmas time live on throughout the year

May Heaven bless with happiness all people everywhere And fill the world with love and joy That's my fervent Christmas prayer!
