Bon Jovi

Bmi - G - A - Emi

- Bmi** **G**
1. Angels falling from the sky
Emi
Imagine that, imagine that
Bmi **G**
Nobody getting out of here alive
Emi
No turning back, no turning back
Bmi **G**
Who's going to bail out all our shattered dreams?
Emi
And scrape some truth off of these city streets
Bm **G**
No time for praying get up off your knees

Bmi **G**
R: There's hope i know
A **Emi**
Out on that lonely road
Bmi **G**
Cause home is where you are
A
and where i am
Bmi **G**
Breathe in, breath out
A **Emi**
There's only now
Bmi **G** **A**
And all i got i'm holding in my hands
Emi
We're breaking out of brokenpromiseland

Bmi - G - A - Emi

2. Let's close our eyes and just disappear
Slip through the cracks no looking back
We'll get a million miles away from here
And let the past just fade to black
So what you learn to live with your regrets
No need to fear what hasn't happened yet
Life will get you but you can't forget

R: There's hope i know...

Bmi - G - A - Emi

Bmi **G**
*: So rise my falling angel
A
Come on now, come on now
Bmi **G**
Shine, don't let them break you
A
Come on now, come on now
A

Come on now, come on now

R: There's hope i know...

Bmi - G
