

Limitless

Bon Jovi

Wake up, everybody wake up
Here we go, it's just another day
Another buzz, another beep
Scrub your face and brush your teeth
Out the door, into the street
I fell out of my sleep
A million different faces
All from different places
Swimming in the sea
Trying to keep your head above water
Trying to keep your head above water

On a night like this
One prayer, one wish
Step out off the edge
It's worth the risk
Life is limitless, limitless
Limitless, limitless

Wake up, everybody wake up
Morning comes, you do it all again
You know the song, it's on repeat
Found your shoes, can't find your feet
Grab your wallet and your keys
Better not forget to breathe
Sweat until you're soaking
Don't let them see you choking
A teardrop in the sea
Trying to keep your head above water
You're trying to keep your head above water

On a night like this
One prayer, one wish
Step out off the edge
It's worth the risk
Life is limitless, limitless
Limitless, limitless
Life is limitless, limitless
Limitless

Left to figure out
What it's all about
When the sun comes up
And the sun goes down
Is there something more
Than it was before
There's an open door
What are you waiting for

Life is limitless, limitless
Limitless

On a night like this
One prayer, one wish
Step out off the edge
It's worth the risk
