1. A little boy of nine years old, the whole world in his hands  
G C  
Trying to toss that ball across the yard, a game of catch with my old man  
Ami C  
He'd always say i'm sorry every time he had to leave  
Ami C  
And I was much too young to understand what he would say to me

D C  
R: When you're young you always think the sun is gonna shine  
D C  
There come a day you'll have to say hello to goodbye  
D C  
Sit down son come take my hand, look me in the eye  
Ami C G  
Take these words promise me your gonna live before you die

G G  
2. I was barely seventeen, the summer of seventy nine  
G G  
Already I was feeling like I was running out of time  
Ami C  
I had this girl we fell in love, or should I say that she had me  
Ami C  
Then one fateful night changed our lives and made a memory

R: When you're young you always think the sun is gonna shine  
There will come a day you'll have to say hello to goodbye  
She laid me down she took my hand and looked me in the eye  
And just before she kissed me she said you're gonna live before die

\*: You learn to love to live  
Ami C D  
You fight and you forgive  
Ami C D  
You learn what's wrong and right  
Ami C G  
You gotta live before you dieeee

G C  
I've made mistakes I've caught my breaks, but i've got no regrets  
G C  
There's some things I don't remember but one thing I don't forget

R: When you're young you always think the sun is gonna shine  
There will come a day you'll have to say hello to goodbye  
Shout it out let someone somewhere know that you're alive  
Take these words wear them well, you gotta live before you die

\*: You learn to love to live

You fight and you forgive  
You face the darkest night  
Just live before you die
