Come back off and get um with another platinum rythm  
and they won't fuck in the lab  
They want to try to keep up so come on  
Thirty million sold and that I'll just stay at that now what about that  
Listen to the thuggish  
And listen to every other rapper rap about who that come from  
Talkin' Bone fell off  
Say what they bust just like us  
They ain't even knowin' were it came from like richer niggas  
They ain't going to give it to us so we gon take it

Now tell me how many thugs  
Get down like us  
And still harmonize like the great Temptations  
Sit back look back  
Came in the game  
Came right back (back) With no hesitation  
Put up yo money honey what ever ya got we won't lose  
Put up or shut up  
Get slapped in front of all your dogs  
And all your dudes  
Cause I'm a smarter thug all ways wanted to be a thug  
What do you think  
Do you think he gon do something  
Don't let the money fool you  
Don't let the money do you  
Cause it ain't really about nothin' (nothin')  
Its just so much they gon let in  
Toss that we gon show you who you are messin' with  
That's why I started a war in this rap game  
You got to hit hard  
And let them now who they dealin' with

When we meet on the concrete jungle  
We can do it  
We can rumble  
Take it to the streets  
And let the whole world crumble  
All I ever seen was heavy smoke in the air  
Bustin' heavy shots  
They just don't care  
If you don't then I'm goin to get all tha bloodiness  
Niggas want peace but I know they all gon test us  
The thugs commin' back to bring the thug essence  
Thugs commin' back to bring back the thug blessins  
For the lord where doin' to fight the wind  
Imma fight to get them all hyped again  
Tell the Bone Thug story again  
If a nigga still hatin' a pipe again  
Like I did before creep creep and I came  
Just four more niggas down for there thang  
Never been afraid to let my nuts hang  
How to you think Bone Thug made it to the top of the game nigga
