

On and On...

Bonfire

Everything has got a reason
So many times you don't know why
Our life goes by just like the seasons

And you can't hold back anything
Deep inside you know it

On and on, on and on, on and on, we get it on
On and on, on and on, we get it on
On and on, on and on, on and on, we get it on
On and on, on and on, we get it on

Live every minute of every hour
'Cause in the end you'll see it pays, oh yeah
Our life is like a wilting flower

Slowly facing death inside
The seed within keeps growing

On and on, on and on, on and on, we get it on
On and on, on and on, we get it on
On and on, on and on, on and on, we get it on
On and on, on and on, we get it on

Don't feel so down, don't lose your ground
You're lost and found
Your die is cast for now and past
And you're gonna' live forever

On and on, on and on, on and on, we get it on
On and on, on and on, we get it on
On and on, on and on, on and on, we get it on
On and on, on and on, we get it on
