

## What About Love

Bonfire

Do you still feel something  
When you hold me thigh?  
I got a feeling that you don't  
Will the flames be burning  
Through our darkest night?  
I got a feeling that it won't  
Bittersweet as a potion  
Full of fading memories  
Bittersweet as the kisses from your lips  
I can taste the agony  
What about love?  
What about the love we used to know?  
What about love?  
What about love, where did it go?  
The love we used to know  
The grass is always greener on the other side  
You can buy it but I don't  
And it ain't no question who is wrong or right  
You believe it or you don't  
Who will hold you when you're crying  
And console you when you're down?  
Who will be there  
In those cold and lonely nights?  
'Cause I won't be around, oh no  
What about love?  
What about the love we used to know?  
What about love?  
What about love, where did it go?  
The love we used to know  
Bittersweet as a potion  
Full of fading memories  
Bittersweet as the kisses from your lips  
I can taste the agony  
What about love?  
What about the love we used to know?  
What about love?  
What about love, where did it go?  
The love we used to know
