

What About Me?

BONNIE PINK

You said you lost your best friend
I know you're down
But why do you say that to me ?

You said she was your whole life
And I just cut in
But why do you say that to me ?

You said she was so good
And you trusted her
But why do you say that to me ?

She left you one day
And you miss her that much
Then why do you still stay with me ?

What about me ?
What about me ?

What about me ?
What about me ?

You said you made a mistake
Looking now
I know you said that to her too

'Cause my heart is broken too
I feel you too well
But now who cares about me ?

What about me ?
What about me ?

She lost her best friend
Because of me
I think I lost something near me

You said you're gonna love her
Until you die
But why do you say that to me ?

What about me ?
What about me ?

What about me ?
What about me ?
