

From You

Bonobo

Gone like changing seasons
Alright
Alright
You swear this is easy
Alright
Alright

Falling from you
Falling from you
Falling from you
Falling from you

You said it was all in my mind
Running through the sugarcane
Stars in my eyes
I don't wanna leave again

Girl I'm falling back
Running from the world do not call it back
Hiding from the world in a cul-de-sac
Hiding from the world in a cul-de-sac

Falling from you
Falling from you
Falling from you
Falling from you

Falling from you
Falling from you
Falling from you
Falling from you
