

Bad Love

Booka Shade

Come and get it, come and get it now
There's a big day waiting for you
Come and get it, come and get it now
Such a big day waiting for you
If you're willing just to take a chance
You gonna shine, shine on, my friend
Shine on, my friend
You were there up in my room
Didn't have a word to say
Suddenly you started to move
So I thought that must be a way
To get a little closer to you
Ooh, ooh, ooh
Just to get a little closer to you
Ooh, ooh, ooh
Come and get it, come and get it now
There's a big day waiting for you
Come and get it, come and get it now
Such a big day waiting for you
If you're willing just to take a chance
You gonna shine, shine on, my friend
Shine on, my friend
Maybe you got something to prove
I'll clear your doubts away
Nothing can happen too soon
Too...
