

## Mary & Child

### Born Against

Once again the battle field is your body and those who want control have laid  
Down their terms in black & white and red all over they keep the backstreet  
Butchers in business as advertised from a bullhorn and the all knowing man  
Has set up his make-believe graveyard with tiny white crosses for millions of  
Make-believe souls someday I'd like to see a cross set up for a real live  
Human being who bled to death to maintain the sanctity of mary mary & child  
Scream the bigots who couldn't care less about human life obey their self-  
Righteous lies while your sisters & daughters die all decisions are final your  
Body is forbidden
