

A Little More Time

Bosson

All I need to, is to find out if
I still really want to continue
I don't know if it's too late
But I think this is the best thing we can do
For both me and you will still be everything
And all that I ever wanted
And everything that I ever needed
But it doesn't mean that this is the end,
This is not the end...

[Chorus]

All I want is just a little more time
A little more time
Just a little more time
More I want is just a time
A little more time
A little more time
To make up my mind

It's not a bad thing.
I would never do anything to hurt you
And I know you really felt the same way too
I keep telling myself you didn't mean to,
But I forgive you
Though you hurt me but I really hope that one day
You will see the reason why I do this is for you and me
But it doesn't mean that this is the end.
This is not the end...

[Chorus]

All I wanted was some time - to make up my mind
And I do really hope that we can work it out
Cause love like ours is hard to find

All I wanted was some time - to make up my mind
All I wanted was some time - to make up my mind
