

I Can Feel Love

Bosson

(I feel love)

I couldn't believe, it happened to me
You knocked me away
So close to my heart, don't know who you are
So sudden but maybe too far
How could I believe it
Finding us here where we are
I still don't know who you are

I can feel love, I can feel love in your eyes
I'm finding my way to your heart
I can feel love in my mind
And it doesn't matter whatever you're saying
In everything you show me I feel love

So much I have seen, so far I have been
But never so close
So deep in my soul, so much I've been told
That love is a heartbreaking game
How can I believe it
Finding us here where we are
I've never been so far

I can feel love. I can feel love in your eyes
I'm finding my way to your heart
I can feel love in my mind
And it doesn't matter whatever you're saying
In everything you show me I feel love

And I know deep in my heart
Nothing could ever bring me down
When you feel love, you know who you are
it's moving you on and on

I can feel love. I can feel love in your eyes
I'm finding my way to your heart
I can feel love in my mind
And it doesn't matter whatever you're saying
In everything you show me I feel love
