

Love Is Still Alive

Bosson

Our love is still alive
And all I want is just to be right by your side
And all I'm asking you is give me one more try
I know the future has a place for you and I
Cause baby our love, our love is still alive

You say that our love is gone and
Whatever we did was wrong
That everything we built is now history, yeah
You've taken my heart away and I can't seem
to make you stay but, baby I believe

I've given it all to you and I've been living my life through
you and I'm not gonna give in now,
we've come too far I know that we're gonna work it out
And even if you still doubt it, baby I believe

Believe me, things will get better
Hold me, I'm more than a friend
Trust me, I promise you one thing
I'll stay with you till the end

[Chorus x3]
