

## Stick Up

Boston Manor

I feel alive but I'd rather be sane  
They've got everything locked in a safe  
I just want what's rightfully mine  
I shouldn't have to beg you to survive

Just get out of my way  
Just get out of my way  
Just get out of my way  
Just get out of my way

Put your hands up this is a stick up  
(Everyone on the ground)  
Put your hands up this is a stick up  
If nobody moves, then nobody dies  
I see the fear in your eyes  
Put your hands up this is a stick up  
And I wouldn't wanna be you

How much time did you spend down in hell?  
Gave me a drink but they poisoned the well  
I'm a mess and I'm down on my knees  
I'm getting sick of decay and disease

Just get out of my way  
Just get out of my way  
Just get out of my way  
Just get out of my way

Put your hands up this is a stick up  
(Everyone on the ground)  
Put your hands up this is a stick up  
If nobody moves, then nobody dies  
I see the fear in your eyes  
Put your hands up this is a stick up  
And I wouldn't wanna be you

Warm your freezing blood up against my skin  
Warm your freezing blood up against my skin

Well you shouldn't be scared  
Cause nobody would care  
If I didn't wake up tomorrow  
Well you shouldn't be scared  
cause nobody would care

Well you shouldn't be scared  
cause nobody would care  
If I didn't wake up tomorrow  
Well you shouldn't be scared  
Well you shouldn't be scared

Well you shouldn't be scared  
cause nobody would care  
If I didn't wake up tomorrow  
Well you shouldn't be scared  
Well you shouldn't be scared

Put your hands up this is a stick up  
(Everyone on the ground)  
Put your hands up this is a stick up  
If nobody moves, then nobody dies  
I see the fear in your eyes  
Put your hands up this is a stick up  
And I wouldn't wanna be you
