

Limit of Love

Boy & Bear

You were broken
Caught up in those games
You've never known when just living's enough
Cos we don't hurt when we're hoping
So strangers we see
Now watch it burn to the limit of love

Down you go watch your spirit
Caught up in those flames
Got too close to the limit of love
It's not your fault what you're feeling
You've bought into that beautiful lie alright
So close to the limit of love
Where nothing matters

What you said that night
Didn't fade away
In the cleanest light
I ain't got nothing to hide
When you're lonesome I
You swore that you could never be satisfied
Too close to the limit of love

Down you go watch your spirit
As it burns in those flames
You're too close to the limit of love
It's not enough just to say it
When you're tripping on a heavenly high tonight
Too close to the limit of love
Where nothing matters

I washed you down with a spirit
You bought into that beautiful lie alright
Can't hurt for your limit of love
How should I know what you're feeling
I wondered if you'd ever be mine but I'm
Too close to the limit of love
Where nothing matters
