

# Come On

Boy Hits Car

Hey world, come on!

Come on forth with me  
Into a broken sea  
'Cause what's the meaning of this life  
When everything comes with a fight?  
Tired and so alone  
With nowhere left to go  
We're sick of this [?]  
As we fight our own battles within

So come on, come with me, and I will run with you  
Cause together there is nothing that we cannot do  
Come on, walk with me, and tell me what you believe  
Cause everything is not alright, the waves of my heart still tonight  
Torn and broke, afraid, but when we gonna say  
The few that have power barely give a shit 'bout you and me

Don't go drown, the final round  
Take my hand and we'll fight on now  
It's our last chance, this fight won't last  
Together we'll be victorious  
Come with me, you  
Come with me

And they fucking say  
That everything's okay  
Well I think they're full of shit  
But that's the Kool Aid, take a sip  
I turn and walk away  
[?]  
Creating something beautiful  
A new universe away

Don't go drown, the final round  
Take my hand and we'll fight on now  
It's our last chance, this fight won't last  
Together we'll be victorious  
Together we'll be victorious  
Come with me, you  
Come with me  
Come with me, you  
Come with me

Just come on  
Come on  
Come on, come with me  
And I will run with you  
Cause together there is nothing that we cannot do

Don't go drown, the final round  
Take my hand and we'll fight on now  
It's our last chance, this fight won't last  
Together we'll be victorious  
Together we'll be victorious
