## Boy Hits Car

and though will we  
one day see  
one is there and what can be  
cause i don't know where to go from here  
and does the wind  
hum a song  
very sweet yet not too long  
that will lift away all my fear  
cause i can't worry about tomorrow  
it wont take away my sorrow  
everything  
has all come down to this moment right now  
so i sit here alone  
staring out of my window  
as the world rambles on by  
and does the  
days give way  
to a lonely solid case  
will everything become alright  
cause i can't worry about tomorrow  
it wont take away my sorrow  
everything  
has all come down to this moment right now  
everything  
has all come down to this moment right now  
and everything's built up inside  
all the pain that comes with life  
if everything comes down today  
but i cannot run away  
and everythings built up inside  
all the pain that comes with life  
if everything comes down today  
but i cannot run away!  
everything  
everything everything everything everything everything  
has all come down to this moment right now  
everything  
everything everything everything everything everything  
has all come down to this moment right now  
oh  
everything everything everything everything everything  
whoa-oh-oh  
everything everything everything everything everything  
and everything  
has all come down to this moment right now...
