

Stuck in the Middle

Boys Like Girls

Here I am again
Everybody's screaming
The walls are closing in
I'm stuck in the middle.
Swimming up a stream
Suffocating in between
I wake up from the dream
Still stuck in the middle
I guess this time I'll wait it out
Someday things will be perfect
It will be worth it all this time
Stuck in the middle
I know things will get better
Hold it together
Take your time
Stuck in the middle

Yeah
Eh

You push and then you shove,
You hate and then you love
You try to switch it up
But you're stuck in the middle
No matter what you do
You had it how you choose
Well either way you got to lose
When you're stuck in the middle.
I guess this time I'll wait it out

'Cause
Someday things will be perfect
It will be worth it all this time
Stuck in the middle
I know things will get better
Hold it together
Take your time
Stuck in the middle

You fight until you're free,
You're down on your knees
Hoping someday you'll make it out
If you just believe
There's hands around your neck
Hearts beating out your chest
Well baby if you wait it out
You will see that

Someday things will be perfect
It will be worth it all this time
I know things will get better
Hold it together
Take your time
Stuck in the middle

Someday things will be perfect
It will be worth it all this time

Well, this time we're stuck in the middle
I know things will get better
Hold it together
Take your time
Well, this time we're stuck in the middle
You're stuck in the middle

Well, this time we're stuck in the middle
You're stuck in the middle
