

# Give Me You

Brandy

Is there a problem?  
That you can't solve, whoa  
You're all alone  
And no one wants to get involved

But I have a friend  
He'll always be around (be around)  
And He'll never leave you  
He will never let you down

All He said He wants from you  
All He said you have to do  
Give Me you  
All He said He wants from you  
All He said you have to do  
Give Me you

You're always saying  
That love is such a heavy burden  
You need someone in your life  
Who will give more loving than hurting

He'll never forsake you  
He will always be around (be around)  
And He'll never leave you  
He will never let you down

All He said He wants from you  
All He said you have to do  
Give Me you  
All He said He wants from you  
All He said you have to do  
Give Me you

You can call Him in the morning  
You can call Him in the noonday  
You can call Him in the evening  
Give Him you  
You can call Him in the morning  
You can call Him in the noonday  
You can call Him in the evening  
Give Him you  
Give Him you....
