

Laid Back Ride

Brantley Gilbert

Game on, she's a straight ten
And I'm a bad boy so I'm all in
I'ma let you catch me starin' in a minute
See if I can catch a smile back, she did it
Don't see no husband, don't see no boyfriend
I got a shotgun seat wide open
If you're down we can ride around a little while
Do it small town style

Take you on a laid back, sip a little somethin'
Let me taste that I don't need your Dixie cup
Baby I can get a buzz off your lips
Ain't never had a buzz quite like this
Sit back, find a country station
Got the top down countin' out every constellation in the sky
You can let your hair down a little while
Let me take you on a, I'ma take you on a laid back ride

She said "What's up with all of you country boys
And your trucks, get the girl, get 'em stuck?"
Baby wait a minute, this here four wheel drive, ain't nothin' to
o play with

Just tryna take you on a laid back, sip a little somethin'
Let me taste that I don't need your Dixie cup
Baby I can get a buzz off your lips
Ain't never had a buzz quite like this
Sit back, find a country station
Got the top down countin' out every constellation in the sky
You can let your hair down a little while
Let me take you on a, take you on a laid back

Kickin' up dust, brushin' it off your shoulder
Baby give me the word I can put it on the floor
Or pull this damn thing over

Let me take you on a laid back, sip a little somethin'
Let me taste that I don't need your Dixie cup
Baby, I can get a buzz off your lips
Ain't never had a buzz quite like this
Sit back, find a country station
Got the top down countin' out every constellation in the sky
You can let your hair down a little while
I'ma take you on a, I'ma take you on a laid back ride
Let me take you on a laid back ride
