

Never Again

Breaking Benjamin

Carry me under
Make me abandoned
Show me whats left, show me whats left
Beautiful anger
Breaking the pattern
Show me what's left, show me whats left

Take the color from from your eyes
I bleed for you, I bleed for you
Bring the broken back to life
We'll make it through, we'll make it through

Empty ain't perfect
Shattered and worthless
Show me what's left, show me whats left
Dragging me further
Forget to remember
Show me what's left, show me whats left

Take the color from from your eyes
I bleed for you, I bleed for you
Bring the broken back to life
We'll make it through, we'll make it through

Never again, never again
Time will not take the life from me
Never again, never again
Time will not take the life from me

And after this world is out of reach
... silent, fading in violence
Hopeless I fight to fall between
Never Surrender, out of the embers
Save a space inside for me

Take the color from from your eyes
I bleed for you, I bleed for you
Bring the broken back to life
We'll make it through, we'll make it through

Never again, never again
Time will not take the life from me
Never again, never again
Time will not take the life from me
