

# Bury Me

Breathe Carolina

Heart rate even, in my sleeps even, in my dreams  
I skip to self coma, push back around of the, taste of your breath

Fuck repercussions, that don't mean shit to me  
It's always focused right, right where it needs to be

They say I'm a sinner, tonight I'm just a thief  
Hold your heart for ransom, away with me  
It turns out she's a killer  
Bury me in concrete to my teeth (away with me)  
Bury me, bury me, bury me  
Bury me in concrete to my teeth

I'll need you, every sleep to you, upon your dreams  
No love when you wake up for God no longer, come on and love

Not repercussions, they never think of me  
It's always focused right, right where it needs to be

I don't wanna be tied down  
Not surprised, I'm buried alive  
I'm dead for all you know  
You don't wanna be alone  
When you open your eyes and I'm alive  
You should have never left me breathing
