

## Find It

Breathe Carolina

We don't need to see  
If we should go in love  
Or leave it in the dust  
Tell me, don't tell me  
There's nothing to discuss  
It's whatever we want

I like not knowing where we going  
Where we're going  
So let's just stay focused on this moment  
All we know is

That baby we'll find it, find it, yeah  
We spending our time in silence, yeah  
If you come through  
There's no talk in this room  
'Cause baby we'll find it, find it, yeah

We just need to be free  
Know exactly from the start  
Don't let it go too far  
So please, please  
Just leave me in the dark  
No need to make it hard

And I like not knowing where we going  
Where we going  
So let's just stay focused on this moment  
All we know is

That baby we'll find it, find it, yeah  
We spending our time in silence, yeah  
If you come through  
There's no talk in this room  
'Cause baby we'll find it, find it, yeah

(If you come through  
There's no talk in this room  
'Cause baby we'll find it, find it, yeah  
If you come through  
There's no talk in this room  
'Cause baby we'll find it, find it, yeah)
