

In the Dark

Breathe Carolina

You've been in my head doing circles
I'm a fucking mess, going psycho
Didn't wanna see things sideways
Didn't wanna sleep in solo

I go dreaming again
All that we did, all that we had
Yeah, I might overreact
I'm out of my head, it's out of my hands

And I can't concentrate
You're out there wide awake
I'm in the dark, in the dark
I fall apart, fall apart

I can't take much more of chasing your ghost
In the dark, in the dark
I can't say much more, let's face it, you're see-through
In the dark, in the dark
In the dark, in the dark

You've been having fun, that's for sure
Ever since you walked out that door
Everything you post is torture
Watching while you chase that culture

I can't concentrate
You're out there wide awake
I'm in the dark, in the dark
I fall apart, fall apart

I can't take much more of chasing your ghost
In the dark, in the dark
I can't say much more, let's face it, you're see-through
In the dark, in the dark
In the dark, in the dark
In the dark, in the dark

I can't take much more of chasing your ghost
In the dark, in the dark
I can't say much more, let's face it, you're see-through
In the dark, in the dark
