

Rescue

Breathe Carolina

Spare us the rescue. We're not lost, we just go where we want
Spare us the rescue. When we roll we roll deep and we'll sink twice as low

Spare us the rescue. I can walk, I can walk on my own two knees
.

It takes, takes some, takes some dying to feel alive.

Spare us the rescue. A friend in need is a friend I don't need

Spare us the rescue. We've made peace with our lovely disease

Spare us the rescue. Crawled out of my tunnel vision to find

It all, all went, all went wrong but it feels alright.

Didn't we enjoy ourselves when we destroyed ourselves.

Whatever happens we're fine

We're on our last life, we'll make no compromise whatever happens we're fine

Spare us the rescue, Back on the street a mile up in the sky

Spare us the rescue. I'm close with my demons there's no need to hide

Spare us the rescue. I've worn out my sins, I need new ones to shine

It takes, takes some, takes some dying to feel alive

Didn't we enjoy ourselves when we destroyed ourselves.

Whatever happens we're fine. We're on our last life

We'll make no compromise. Whatever happens we're fine, so spare us the rescue

Where have we been where will we go so far. I'm not distant but this distance

makes all the difference to me. Who have we been? Who will we be so far?

It's not visible but we're perfectly comfortable here.
