

Feel Like Taking You Home

Brendan Benson

Something's not right
I'm overcome by fear
Should've stayed home tonight
I got to get out of here

Feel like taking you home now
Feel like being alone now
Don't wanna pick up the phone now
Just wanna be left alone now

Well I tried not to make waves
I tried to go with the flow
I've been hiding in caves
The only life I know

Feel like taking you home now
Feel like being alone now
Don't wanna pick up the phone now
Just wanna be left alone now

And my heart's beating fast
But reaction is slow
And how long it will last
I don't really know

So tell me something that matters
Show me someone who cares
Cause when it finally shatters
I'll be climbing the stairs

Feel like taking you home now
Feel like being alone now
Don't wanna pick up the phone now
Just wanna be left alone now
I just wanna go home now

I keep a constant motion
Pick shells there where I'm living
I get shot in the ocean
I just got to keep swimming

Well here comes trouble
Here comes the curse
My love is lamentable
It only gets worse

Feel like taking you home now
Feel like taking you home now
Feel like taking you home now
Feel like being alone now
