

Mother Night

Brett Anderson

Disco bunny, where do you go
When you close your eyes
Disenchanted with the future
And what that implies

Nothing in the zoo is real but feeding time
Disco bunny, where do you go
When the feeling dies

And she says

Mother night
Take me mother night
With your sleepy lies
And your big brown eyes

Mother night
Take me mother night
Mother night take me
Take me mother night

Disco bunny, where do you go
When you take off your heels
Brain-dead people in the bedroom
Try to catch a feel

Nothing in their world is real but fantasy
Disco bunny where do you go
When you're feeling real

Mother night
Take me mother night
With your sleepy lies
And your big brown eyes

Mother night
Take me mother night
Mother night take me
Take me mother night

Mother night (Wohoo)
Mother night (Wohoo)
