

# Oxygen To The Brain

Brian Wilson

Open up, open up, open your eyes  
It's time, it's time, it's time to rise  
Okay, let's take it slow  
You ain't got no place to go

I cried a million tears  
I wasted a lotta years  
Life was so dead (so dead)  
Life was so dead (so dead)

Oxygen, oxygen, right to the brain  
Super vices verses gettin' to the refrain  
Let yourself float, don't carry that weight  
Never destroy when you can create  
Ready steady, California  
I'm fillin' up my lungs again  
And breathin' life

How could I have got so low?  
I'm embarrassed to tell you so  
I laid around this old place  
I hardly ever washed my face

Oxygen, oxygen right to the brain  
Super vices verses gettin' to the refrain  
Let yourself float, don't carry that weight  
Never destroy when you can create  
Ready, set in California  
I'm fillin' up my lungs again  
And breathin' life

Now it don't matter  
What your age is  
Don't you know it's just a state of mind  
Let's get the jump on it  
Before it's too late  
Friendly reminder  
Friendly reminder

So take a lesson from one who knows  
Just where being lazy goes  
There's a time to live  
A reason to live  
To live  
To live

Oxygen oxygen right to the brain  
Skip the vices verses gettin' to the refrain  
Let yourself float, don't carry that weight  
Never destroy when you can create  
Ready set in California  
I'm fillin' up my lungs again  
And breathin' life

Open up, open up, open your eyes  
It's time, it's time, it's time to rise  
Okay let's take it slow

We ain't got no place to go
