

# This Isn't Love

Brian Wilson

This isn't love, this is ecstasy  
Somehow I knew you would come to me  
I've just been waiting for you to come  
Into my life this way  
Now here you'll stay

This isn't love, this is destiny  
Somewhere above this was planned for me  
Life had no meaning, I never knew what  
Til the dream came true  
The dream is you

I never say never  
But this love won't ever be over  
Together we'll share love wherever we go

This isn't chance, this was meant to be  
I knew I'd find you eventually  
Nothing else matters, As long as I know  
You will always be so close to me

I never say never  
But this love won't ever be over  
Together we'll share love wherever we go

This isn't chance  
This was meant to be  
I knew I'd find you eventually

Nothing else matters  
As long as I know  
You will always be so close to me

I never say never  
I never say never  
I never say never  
I never say never  
I never say never
